NEW YORK, June 10 .- Amos After Type of Carranza's Advisers- liam S. Perkins, the chairman of the national executive committee, withdraw absolutely from the direction of party affairs, "for the good of the party." Copies of the letter were sent to Roosevelt, Perkins Senator Dixon and members of the national committee on May 23. Perkins has not yet replied.

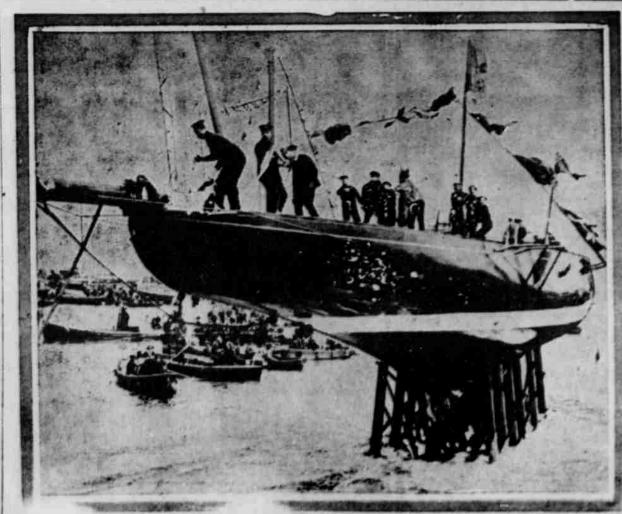

Pinchot's letter charges that an element of the party leadership headed by Perkins, favors the protection of private monopoly and since the party's formation have been taking active steps to commit the party to that policy; that Perkins opposes the recognition of the right of labor to organize and deal with capital through unions, and has frequently gone on record to this effect with the result that the party has been subject to the charge it is lukewarm or even antagonistic to the interests of the
